NEW YORK

January 25th, 1933.

RE: GENUINE IMPORTED SWEET SPANISH VALENCIA ONION SEED.

Gentlemen:-

The wonderful results which our GENUINE SWEET SPANISH VALENCIA ONION SEED has shown in commercial growings at Rocky Ford, Colo., Kimmell and Fort Wayne, Ind. as well as in Idaho, Oklahoma and California prove beyond doubt the unusual value of this seed and that its use insures greater returns to the planter.

In the New York Market, probably the most competitive one in this country produce dealers tell us that consignments from plantings of our seeds bring premium prices, both for quick sale and storage. This is easy to understand when one sees that the GENUINE SWEET SPANISH VALENCIA ONION SEED produces milder, sweeter onions of uniform shape and large size which are unsurpassed keepers. The flesh is pure white, the skin golden brown thin and dry, never tough and leathery.

It will not have escaped your attention that last year, three crops of Onions grown by Mr. Milnar in Indiana, won all the highest Indiana State Awards. Our seed was used exclusively. We shall be glad to put you in touch with Produce Firms who are well acquainted with the growing performance of our seed and the sales possibilities of the Onions produced.

GENUINE SWEET SPANISH VALENCIA ONION SEED costs just a trifle more than reproduced seed; but in view of the heavier tonnage and the larger percentage of top grade onions as well as the better price they command, this small advance is soon absorbed.

Yours truly,  
HERBST BROTHERS, INC.
